160 objects that attest to the artistic and cultural flowering that occurred under Qin and Han rule. Before this time, China consisted of seven independent states. They were brought together by Qin Shihuangdi, the self-proclaimed First Emperor of the newly unified realm. Under him, the earliest foundations of the Great Wall were laid, and the Qin army made spectacular advances in the arts of war—an achievement best expressed in the magnificent army of lifesize terracotta warriors and horses that stood before his tomb, seven of which are reproduced here. The Han built on the successes of the Qin, the increasing wealth and refinement of the empire reflected in dazzling bronze and lacquer vessels, ingeniously engineered lamps, and sparkling ornaments

more specifically, international exhibitions, have played in shaping China ' s international image to date. Drawing on theories and methods from museum studies and international relations, the book evaluates the contribution international exhibitions make to China ' s cultural diplomacy strategy. Considering their impact on the country ' s international image, Kong also probes the mechanisms and processes involved, examining in detail the policy of, and international activities promoted by, the Chinese government. The book also analyses the motives of the Chinese and overseas museums that host these exhibitions. Taking some major exhibitions that were on show in the UK during the 21st century as a representative case study, the
