An Introduction to Sociolinguistics (Blackwell... by ...

Sociolinguistics is the descriptive study of the effect of any and all aspects of society, including cultural norms, expectations, and context, on the way language is used, and society's effect on language. It differs from sociology of language, which focuses on the effect of language on society.Sociolinguistics overlaps considerably with pragmatics. ...

Fully updated to reflect the most recent scholarship in the field and revised to include many more pedagogical features, An Introduction to Sociolinguistics, 7th Edition builds on its foundation as the most preeminent textbook in sociolinguistics, updated for today's students. • Significantly revised discussions throughout each of the book's four key parts reflect the state of the field today • Includes new chapters on Pragmatics, Discourse Analysis, and Sociolinguistics and Education • Incorporates innovative new perspectives drawn from linguistic anthropology • Provides an accessible history of the development of sociolinguistic thought and how this fast-moving field is integral to our lives • Includes numerous opportunities for students to engage with ideas presented in the text through a new glossary, new Explorations and end-of-chapter exercises, links, and key concepts • New companion website includes links and resources for students

The new edition of the most complete and student-friendly introduction to the field of sociolinguistics, fully revised and updated An Introduction to Sociolinguistics, Eighth Edition, is a broad overview of the study of language in social context, providing accessible coverage of major concepts, theories, methods, issues, and debates within the field. This leading textbook helps students develop a critical perspective on language in society as they explore the complex connections between societal norms and language use. Organized in four sections, the text covers traditional language issues, broad approaches to research in sociolinguistics, and language in relation to gender and sexuality, education, and policy. The eighth edition contains new and updated discussion of topics including the societal aspects of African American Vernacular English (AAVE), multilingual societies and discourse, gender and sexuality, ideologies and language attitudes, and the social meanings of linguistic forms. Fully updated throughout, this important textbook: Provides perspectives on both new and foundational research in sociolinguistics Features examples from a variety of languages and cultures that illustrate topics such as social and regional dialects, multilingualism, and language in education Includes end-of-chapter written exercises, key topic lists, chapter summaries, and “ Explorations ” designed to promote classroom discussion Offers students further reading suggestions, research ideas, and an updated companion website containing a searchable glossary, a review guide, additional exercises and examples, and links to online resources Includes a guide to the all explorations and exercises in the textbook, discussion topics, and other teaching resources via an instructor ’ s website Encouraging students to approach sociolinguistics both empirically and as a way of viewing the world around them, An Introduction to Sociolinguistics, Eighth Edition, remains the ideal textbook for upper-level undergraduate and graduate courses in sociolinguistics, language and society, anthropological linguistics, applied and theoretical linguistics, and education.

This comprehensive new edition of Wardhaugh ’ s textbook incorporates additional study features and numerous new and updated references to bring the book completely up-to-date, whilst maintaining

the features that made the book so popular with lecturers and students: accessible coverage of a wide range of issues, clearly written, and with useful student study features. A fully revised new edition of Ronald Wardhaugh's popular introduction to sociolinguistics, which now includes over 150 new and updated references and new study features throughout. Features new "Explorations" sections in each chapter incorporating suggested readings, discussion sections, and exercises – all designed to encourage students to develop their own skills and ideas. Reflects new developments in the field, providing greater focus on ideas such as identity, solidarity, and markedness. Provides balanced coverage of a range of topics, including: language dialects, pidgins and Creoles, codes, bilingualism, speech communities, variation, words and culture, ethnographies, solidarity and politeness, talk and action, gender, disadvantage, and planning. Comprehensive and accessible, it is the ideal introduction for students coming to sociolinguistics for the first time.

Since it first appeared more than fifteen years ago, Ronald Wardhaugh's *An Introduction to Sociolinguistics* has been an immensely popular textbook for courses in sociolinguistics and the sociology of language. Provides an accessible, comprehensive introduction to sociolinguistics that reflects new developments in the field. Features revisions and updates throughout the text, further reading sections, exercises, and references. Offers continuity and compatibility with the third edition.

The new edition of Ronald Wardhaugh's immensely popular textbook incorporates a wealth of new material reflecting the progress of the field since the start of the 1990s, with coverage of some 150 recent books or papers.

In this best-selling introductory textbook, Janet Holmes and Nick Wilson examine the role of language in a variety of social contexts, considering both how language works and how it can be used to signal and interpret various aspects of social identity. Divided into three sections, this book explains basic sociolinguistic concepts in the light of classic approaches as well as introducing more recent research. This fifth edition has been revised and updated throughout using key concepts and examples to guide the reader through this fascinating area, including: a new chapter on identity that reflects the latest research; a brand new companion website which is fully cross-referenced within this book, and which includes video and audio materials, interactive activities and links to useful websites; updated and revised examples and exercises which include new material from Tanzania, Wales, Paraguay and Timor-Leste; fully updated further reading and references sections. *An Introduction to Sociolinguistics* is the essential introductory text for all students of sociolinguistics and a splendid point of reference for students of English language studies, linguistics and applied linguistics.

The *Guidebook to Sociolinguistics* presents a comprehensive introduction to the main concepts and terms of sociolinguistics, and of the goals, methods, and findings of sociolinguistic research. Introduces readers to the methodology and skills of doing hands-on research in this field. Features chapter-by-chapter classic and contemporary case studies, exercises, and examples to enhance comprehension. Offers wide-ranging coverage of topics across sociolinguistics. It begins with multilingualism, and moves on through language choice and variation to style and identity. Takes students through the challenges involved in conducting their own research project. Written by one of the leading figures in sociolinguistics.

Introduction to Pragmatics guides students through traditional and new approaches in the field, focusing particularly on phenomena at the elusive semantics/pragmatics boundary to explore the role of context in linguistic communication. Offers students an accessible introduction and an up-to-date survey of the field, encompassing both established and new approaches to pragmatics. Addresses the traditional range of topics – such as implicature, reference, presupposition, and speech acts – as well as newer areas of research, including neo-Gricean theories, Relevance Theory, information structure, inference, and dynamic approaches to meaning. Explores the relationship and boundaries between semantics and pragmatics. Ideal for students coming to pragmatics for the first time.

"It's rare to encounter a textbook that one will want to read cover to cover. But Gerard van Herk has written exactly that, introducing students to the field of sociolinguistics as the best teachers do: with excitement, humor, and deep knowledge. *What is Sociolinguistics?* is a tour through the major issues that define the field, such as region, status, gender, time, language attitudes, interaction, and style, while also exploring the sociolinguistics of multilingualism, culture and ethnicity, language contact, and education. The companion website offers PowerPoint slides for instructors and sample answers to questions, while providing students with further resources, including sound files and carefully curated links for further study"--

The first linguistics-based textbook on conversation analysis, illuminating the universals of interaction across a rich array of languages.
