Now in its fourteenth edition, Selwyn's Law of Employment is the most reliable and definitive guide to employment law on the market. Practitioners and students of employment law, those studying professional courses in business and human resource management, and anyone involved in giving employment law advice in the course of their work, will find all they need in this best-selling textbook. It provides full coverage of the law regulating the individual employment

relationship as well as collective labour law. Each chapter has been thoroughly revised to include treatment of the latest legislative provisions and the widest coverage of case law from United Kingdom and European Courts. Written by a former university lecturer with over 40 years' experience of writing on the subject, this is the perfect working text for those who require a clear understanding of employment law. Online Resource Centre The text is supported by an Online Resource Centre containing twice yearly updates to important cases and legislation.

Forty years since its first edition, Selwyn's Law of Employment continues to provide a full and reliable guide to employment law for law students, practising lawyers, and those studying employment law in a business or professional context. Norman Selwyn's practical approach to the subject has been maintained by Astra Emir, ensuring that the far-reaching and concise treatment encapsulates the developing issues in this fluid area of law. Case law from the UK and EU is included and both collective and individual employment law is considered to offer an inclusive representation of the subject. The direct and lucid writing style will help readers with legal and non-legal backgrounds to engage with the topics and detect the fundamental employment law principles and cases.

Providing solutions to specific issues which regularly arise in practice, this practical guide gives detailed and up to date coverage of all key aspects of privilege including legal advice privilege, joint and common interest privilege, and the privilege against self-incrimination as they apply to litigation and non-litigation situations.

A guide to the inside workings of common machines and devices takes readers deep inside such items as car engines, computers, microwave ovens, and firecrackers.

Advances in industrial technologies and improved performance of constructional materials are interdependent and have become of increasing concern in recent years. This Conference aimed to - provoke discussion of the limits towards which high temperature alloys properties can, ultimately, be developed, identify the resulting R&D requirements and design developments. Following a key-note paper concerning the relation of current capabilities to requirements for gas turbines the conference was structured into 3 sessions which examined: * the theoretical/practical limits for HT Alloys, * the potential for development in alloys and processing, * engineering considerations. Finally, feeling perhaps the approaching "wind of change" the Conference on remaining alloy potential was wound up with a paper entitled "The potential/problems of Engineering Ceramics". The different sessions each included a number of invited papers followed by a series of posters and were concluded by a presentation of a "synthesis" by a session rapporteur and general discussion. This structure is retained in the proceedings, including the discussion points in those cases where the authors have provided written answers to questions raised.

The law of commercial remedies raises a number of important doctrinal, theoretical and practical controversies which deserve sustained and rigorous examination. This volume explores such controversies and suggests solutions, which is essential to ensure that the law is defensible, clear and just. With contributions from twenty-three leading academic and practitioner experts, this book addresses significant issues in the law which, taken together, range across the entire remedial jurisdiction as it applies to commercial disputes. The book primarily focuses on the resolution of controversies in the English law of commercial remedies, but recent developments elsewhere are also considered, especially in other common law jurisdictions. The result provides remarkably comprehensive coverage of the field which will be of relevance to academics, students, judges and practitioners.

Therapies and Rehabilitation in Down Syndrome covers the entire lifespan of a DS patient, from infancy to 60 years and beyond, focusing not simply on identifying problems, but providing a detailed look at major therapeutic approaches. Discussion includes future genetic therapy, questions of quality of life, hormone and other therapies for medical problems, prevention and treatment of normal and pathological aging, as well as psychomotoric rehabilitation. This is an important book not only for scientists concerned with various facets of DS, but practitioners looking for guidelines for therapies and clinical application of research findings.
