provided to identify the salamanders in Figure 1. 2. Write the pathway you took to get to the name of the salamander next to the drawing. 3. Write the correct name for the salamander on the line below each picture.

~~Dichotomous Key to Salamanders~~
salamander has already been named and classified, but how can you learn its identity? As an aid to help others identify unknown organisms, biologists have developed classification keys. These classification keys are often called dichotomous keys (the word dichotomous comes from the word dichotomy meaning “ two opposite categories ”). A dichotomous key presents the user with two
