Biology EOC Review

End-of-Course (EOC) Assessments. EOC assessments are computer-based, criterion-referenced assessments that measure the Florida Standards (FS) or the Next Generation Sunshine State Standards (NGSSS) for specific courses, as outlined in their course descriptions. In 2011, Algebra 1 (NGSSS) was the first course to undergo the implementation of a statewide EOC assessment.

A leading economic historian traces the evolution of American capitalism from the colonial era to the present—and argues that we’ve reached a turning point that will define the era ahead. “A monumental achievement, sure to become a classic.” —Zachary D. Carter, author of *The Price of Peace* In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country’s economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of the finance industry created a booming economy for some but also striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country’s history—and it’s likely changing again right now. “A stunning accomplishment . . . an indispensable guide to understanding American history—and what’s happening in today’s economy.” —*Christian Science Monitor* “The best one-volume history of American capitalism.” —Sven Beckert, author of *Empire of Cotton*

NATIONAL BESTSELLER • An audacious, darkly glittering novel set in the eerie days of civilization’s collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Now an original series on HBO Max. Over one million copies sold! Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of *King Lear*. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves *The Traveling Symphony*, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in *St. Deborah by the Water*, they encounter a violent prophet who will threaten the tiny band’s existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel’s new novel, *Sea of Tranquility*, coming soon!

Taking the Florida Biology 1 End-of-Course Exam? Then You Need REA's Florida Biology 1 End-of-Course Test Prep with Online Practice Exams! If you're facing the Florida Biology 1 End-of-Course exam and are concerned about your score, don't worry. REA's test prep will help you sharpen your skills and pass this high-stakes exam.
