Hi Danny, I was looking through a volume of the collected works of Borges, and came upon a review he wrote (vol 1, p. 446) of `Mathematics and the Imagination', by Edward Kasner and James Newman: http://www.amazon.com/Mathematics-Imagination-Edward-Drawings-Diagrams/dp/B003OUQD04/ This book was published in 1940, and the translation of Anschauliche Geometrie was published in 1952 (see attached). So my current theory is that when `Geometry and the Imagination' appeared, the title would ...
