These factors are, in large part, the problems facing Iveco and its Stralis cab-over. For one reason or another, the brand's powerbrokers have for many years done little to incite long-term confidence, while mechanical issues have dogged any regard for reliability, particularly concerning the Cursor engine. However, things may be changing.

Hi, I have a 2007 Iveco stralis with a cursor 10 engine. I am a farmer in Australia and use the prime mover with a tipper trailer to deliver grain to port. My problem is that the engine overheating alarm comes on regularly, especially on hot days. I do have to drive it through the field a lot, which can suck up a lot of dust and chaff.
