Suggests writing prompts to encourage students in grades 2-4 to write about their math thinking.

This easy-to-read summary is an excellent tool for introducing others to the messages contained in Principles and Standards.

To help students communicate their mathematical thinking, many teachers have created classrooms where math talk has become a successful and joyful instructional practice. Building on that success, the ideas in *Why Write in Math Class?* help students construct, explore, represent, refine, connect, and reflect on mathematical ideas. Writing also provides teachers with a window into each student's thinking and informs instructional decisions. Focusing on five types of writing in math (exploratory, explanatory, argumentative, creative, and reflective), *Why Write in Math Class?* offers a variety of ways to integrate writing into the math class. The ideas in this book will help you make connections to what you already know about the teaching of writing within literacy instruction and build on what you've learned about the development of classroom communities that support math talk. The authors offer

## Read Book Math Journal Prompts 5th Grade

practical advice about how to support writing in math, as well as many specific examples of writing prompts and tasks that require high-cognitive demand. Extensive stories and samples of student work from K-5 classrooms give a vision of how writing in math class can successfully unfold.

Clever Tom Fitzpatrick thinks his fortune is made when he captures a leprechaun and forces him to reveal the hiding place of his gold, but the leprechaun is clever too.

If you are looking for a way to help your students master the Common Core State Standards for Mathematics, this is it! Best of all, JUMP will complement ANY textbook or curriculum. JUMP: Journal for Understanding Mathematical Principles is a series of student math journals designed specifically to address the Common Core State Standards for Mathematics. The teacher-authors have analyzed and interpreted each Common Core State Standard for Mathematics to provide journal prompts that reflect what students need to know and be able to do at each grade level. Each edition also includes prompts for academic vocabulary terms that are essential to understanding mathematical concepts at each grade level. JUMP deepens students' understanding of mathematical concepts while reinforcing critical processes and proficiencies outlined in the CCSS Standards for Mathematical Practice. JUMP asks students to make sense of problems and persevere in solving them, reason abstractly and quantitatively, construct arguments and critique their work and the work of others, model with mathematics, and use mathematical tools. JUMP can be used in a variety of settings including whole group instruction, small group instruction, peer learning teams, partners, or individual learning. JUMP can be used for a variety of purposes including pre-assessment, formative assessment, summative assessment, guided practice, independent practice, homework, enrichment, intervention, evidence for parent/teacher conferences, or evidence for portfolios. JUMP can be used by a variety of educators including general education teachers, special education teachers, teachers of English language learners, math resource teachers, summer school teachers, intervention teachers, or tutors. And, again, JUMP will complement ANY textbook or curriculum. The JUMP Student Editions are scaffolded from primary to upper grades. In Grades 1-3, Signal Words are written in color in the prompt to alert students that a task must be performed. These words also are included in corresponding color-coded response boxes. In Grades 4-5, Signal Words are written in color in the prompt and there are color-coded response boxes, but at these grade levels the Signal Words are not included in the boxes. The JUMP Teacher's Guides for each grade level are sold separately. The Teacher's Guide contains tips and general directions for using the journals. Also included are full copies of the student journal pages and helpful scoring guides. To assist teachers with lesson planning, the specific Domain, Cluster, and Standard being addressed are also provided for each prompt. The authors of JUMP are veteran teachers who collectively have more than 60 years of teaching experience. They bring their knowledge of curriculum and instruction along with their compassion for children and have created a product that will have your students understanding and talking and writing about mathematics.
