Power Doorlock Installation for '99 Miata Note: These instructions are for a '99 Miata with power windows and an automatic passenger's side door lock. If you have manual windows, you'll need to remove the window crank. If you don't have automatic passenger's side door lock, you'll need a kit with two actuators instead of one.

Power Doorlock Installation for '99 Miata

Power Locks: Power Lock Kit For Mazda Miata. To the best of our knowledge, up until around 1997, there were no Miatas made with power locks, but the doors of the Miata were designed for power locks and installation isn't that difficult. This kit is a prewired power lock kit. If you can install a car stereo, you can install these power locks. We can honestly say that running the wires out of ...

Genuine OEM Locks & Hardware for Mazda Miata for sale | eBay

The power door lock system is a relatively simple system. When you press the lock or unlock button (located on your key, or inside your vehicle), the power door lock sends a relay signal to the power door lock actuator. The actuator, through a series of gears, locks or unlocks the door or doors that you are controlling.
