NAVY SEABEE VETERANS of AMERICA is a non-profit organization of veterans that have served in Naval Construction Force commands, who dedicate and pledge to preserve the fundamental ideals on which our Nation was founded believing in Justice, Freedom and Equality for all.

This is a story about John R. O'Brien's two tours of duty in Vietnam from 1967 to 1969 as a Navy Seabee. He never spoke in length about his service in Vietnam for 40 years. As a first time author, now retired, he would like to share his many Vietnam construction projects and experiences, along with many personal photographs. This is a boots on the ground enlisted man's story. He has been married for 40 years, is a proud father of three children and active grandfather to six grandchildren, who he refers to as "The Sunshine

Kids." His character and work ethic as a team player he received while serving in the U.S. Navy Seabees was a stepping stone toward all of his life's accomplishments. John is a member of the John J. Morris American Legion Post 62 in Peoria, Arizona and a life-time member of the Navy Seabee Veterans of America, Island X-5 in West Valley, Arizona.

The U.S. Naval Construction Battalion Center at Davisville, Rhode Island, is first remembered as the original "Home of the Atlantic Seabees." During World War II, 100 battalions as well as dozens of other U.S. Navy "Builder-Fighter" units were formed, outfitted, trained, and prepared for overseas deployment. Here, in the first photographic history of the base, is the story of the men and women who came to Davisville and their legacy of superb accomplishments in the service of their country. Established on February 27, 1942, the base was designated to manufacture and ship overseas materials and equipment and to outfit and embark construction battalions and other naval units. Between 1942 and 1994, when the base was closed, the Seabees participated in every war involving the United States. The Quonset Hut and the Davisville Pontoons were both developed at the Davisville Seabee Center. The base has schooled and trained thousands of officers and tens of thousands of Seabees.

In 1942, the navy sought a location for an advance base on the West Coast to ship construction materiel, equipment, and men into World War II's Pacific theater. Port Hueneme's deepwater harbor, rail system, and rural setting made it the ideal site from which to send 20 million measurement tons of war materiel and a quarter of a million men onto island specks that later became headlines: Guadalcanal, Tarawa, Iwo Jima, Okinawa, and the Philippines. Seabees later deployed from Port Hueneme to serve in the Korean, Vietnam, Desert Shield/Desert Storm, and Iraqi conflicts, as well as in peacetime, for more than 60 years. Charged with building air bases, ports, combat camps, hospitals, and other support facilities as

part of military and humanitarian efforts around the world, the Seabees remain at home in Port Hueneme.

Born in the hellish aftermath of Pearl Harbor, the Seabees began as barely armed civilians with no military training. They had an average age of 35. GIs would joke, "Never hit a Seabee, for his son might be a Marine." America's bulldozing, jungle-hacking, Jap-cracking Construction Battalion or the Seabees (C.B.s) soon proved themselves miracle-construction-workers in seemingly impassable combat zones. Before World War 2, Marines were the ones to get their first, but the need for roads in the muddy battlefields of the Pacific meant that claim would pass to the Construction Battalion. Their early motto was "Can Do!"
