"Everybody's Business: An Almanac compiled, evaluates, and puts at your fingertips a wealth of information about the major corporations that shape the lives of all Americans...In understandable, nontechnical language, this in-depth almanac encapsulates the history of each corporation and reviews the present-day, innermost working of each. Everybody's business provides: sales and profits; rankings; numbers of employees and main employment centers; services and products offered; brand names used; sales and marketing strategies; important holdings (including property and subsidiaries); reputation (how outsiders feel about the company); who actually owns and runs the company; the presence -- or absence -- of minorities or women on the boards of directors; past history and likely directions for the future; in the public eye (from lawsuits to charitable contributions); stock performance; address and phone number of main office. Interspersed with company profiles are numerous short articles and fillers that give inside information on the business world....Of unique value is the only published index to link all the major brand names with the companies that produce them....Everybody's Business is the one eye-opening and indispensable guide to the people, products, and profits of corporate America" --

Reviews a variety of current consumer products and helps consumers obtain the most value for their money.

The Handmade Silver Gelatin Emulsion Print is a cookbook of simple, basic recipes for making black and white printing paper and paper negatives, along with creative options for printing, toning, and coloring. Author Denise Ross draws from photographic literature from the last 135 years, adapting old recipes to fit modern tools, materials, and work spaces and modern twists have been applied to traditional techniques. The book is divided into three sections: Section One lays the groundwork for this unique alternative process; Section Two provides the recipes; Section Three highlights contemporary silver gelatin artists. The book features over 200 full-color images and covers key topics including: Vocabulary: a list of terms used by traditional photographers and emulsion makers Creating work spaces with the right tools and materials Basic emulsion chemistry and paper coating techniques Working with various negative options, analog and digital Gaslight chloride contact printing paper Kodabromide-type chlorobromide all-purpose paper Bromide enlarging paper Warm tone paper and developers Making and toning your own printing-out paper (POP) Matte surface and baryta coating surface paper Paper negatives and making hand-drawn and digital masks Toning handmade paper Gum printing over handmade paper Troubleshooting handmade paper Artists working with handmade paper The Handmade Silver Gelatin Emulsion Print is for photographers who love the look and creative potential of black and white traditional photography but who want more control over the process and the end product. It is written for the beginner to experienced photographer, with processes initially explained in such a way that anyone will feel comfortable getting started, as well as information in increasing levels of complexity so that experienced photographers who enjoy a challenge will also find one.
