One of the most controversial topics in the news is the outsourcing of American jobs to other countries. Outsourced jobs have extended well beyond the manufacturing sector to include white-collar professionals, particularly in information technology, financial services, and customer service. Outsourcing America reveals just how much outsourcing is taking place, what its impact has been and will continue to be, and what can be done about the loss of jobs. More than an exposé, [Outsourcing America](#) shows how offshoring is part of the historical economic shift toward globalism and free trade, and demonstrates its impact on individual lives and communities. In addition, the book now features a new chapter on immigration policies and outsourcing, and advice on how individuals can avoid becoming victims of outsourcing. The authors discuss policies that countries like India and China use to attract U.S. industries, and they offer frank recommendations that business and political leaders must consider in order to confront this crisis—and bring more high-paying jobs back to the U.S.A.

"Inside Outsourcing provides a true insider's knowledge of the realities of managing the outsourcing process. From contracting out to co-sourcing, from partnering to insourcing, the book explains what outsourcing is, what the rationale for outsourcing ought to be, whether an organization ought to be doing it and if so, the practical details of how it should go about it." "Unlike other more theoretical approaches to outsourcing, this book presents a detailed and practical guide through each step of the process - from decision making to implementation - to identify what a company does more creatively, more energetically, and more uniquely than the competition, not simply what conventional wisdom says it does best."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Entrepreneurs often suffer from "superhero syndrome"—the misconception that to be successful, they must do everything themselves. Not only are they the boss, but also the salesperson, HR manager, copywriter, operations manager, online marketing guru, and so much more. It's no wonder why so many people give up the dream of starting a business—it's just too much for one person to handle. But outsourcing expert and "Virtual CEO," Chris Ducker knows how you can get the help you need with resources you can afford. Small business owners, consultants, and online entrepreneurs don't have to go it alone when they discover the power of building teams of virtual employees to help run, support, and grow their businesses. [Virtual Freedom: How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business](#) is the step-by-step guide every entrepreneur needs to build his or her business with the asset of working with virtual employees. Focusing on business growth, Ducker explains every detail you need to grasp, from figuring out which jobs you should outsource to finding, hiring, training, motivating, and managing virtual assistants. With additional tactics and online resources, [Virtual Freedom](#) is the ultimate resource of the knowledge and tools necessary for building your dream business with the help of virtual staff.
