Abstract and Keywords. This chapter explores some legal and literary ramifications of “ accident ” in British law and society from the late eighteenth through the early twentieth century. This period saw changes in common law and legislation relating to accidents, including the emergence of negligence as a distinct tort and statutory provisions for employer liability and workplace compensation.

This article reviews the trends in the institutional development of work accident and sickness daily allowance schemes. It mainly concentrates on Organization for Economic Co-operation and Development (OECD) countries. It starts by outlining the history of work accident insurance, in most countries, the first social insurance programme legislated; its history highlights a number of factors behind the development of later programmes.
