However, not all modifications can be considered an upgrade. In fact, the Total 911 team believe that some tweaks to your Porsche 911 should be avoided at all costs. Here they are: Fake Fuchs wheels. The five-leaf Fuchs wheel design is an intrinsic part of the Porsche 911\u2019s heritage.

~~Total 911\u2019s five Porsche 911 modifications to avoid ...~~

While the Porsche 996 was seen as a significant upgrade or change from its predecessor called the 911, it was fine-tuned over the years owing to changing emission standards. Progressively stringent emissions standard coupled with environmental concerns, noise regulation and other issues meant that the vehicle received minor updates, in particular to the 4-valve per cylinder engine.

~~Porsche 996 Parts & Accessories~~

The Porsche 996 is the internal designation for the 911 model manufactured from 1997 to 2006 It was replaced by the 997 in 2004 but the high performance Turbo S, GT2 and GT3 variants remained in production until 2006. The 996 had little in common with its predecessor, with the first all new chassis platform since the original 911 and a new water-cooled engine. Technically, it was a major change, a complete breakthrough from the original car other than the overall layout. Development was shared w

~~Porsche 996 - Wikipedia~~

One of the most popular power upgrades for the Porsche 996 Turbo, X50, GT2 has been our high flow 3 inch Y-Pipe kit. Now this same kit that has been available for years is now available in full carbon fiber! The new Y-Pipe replaces the factory unit and 70% of the silicone boost hoses.
