How is it possible that both university graduates and unfilled job openings are both at record-breaking highs? Our world has changed. New and emerging occupations in every industry now require a combination of academic knowledge and technical ability. financially oriented people in spiritual crisis and spiritually oriented people in financial crisis.

Life is just like walking through the rain--whether you dance through it (and have fun) or just try to avoid the puddles--you still get wet. Your life has a God-authored plan that can be exciting or can be drudgery--it all depends on how you choose to see each circumstance in your day. Each day, you can be surrounded by circumstances that test who you say you are. Those are circumstances that test your character. Circumstances like financial hardship, failed relationships, unexpected opportunities, unplanned success, or a blow to your self-esteem. Circumstances as trivial as an argument with your spouse, or as difficult as an argument with your spouse. You might think that God has deserted you when you have difficult circumstances in life, but you can find that He is closer than ever before. Re-Defining Success: Finding New Hope lets you know that you aren't the only one who has fouled up in some aspect of life and that you can come out of the situation that you are in stronger and smarter than you were yesterday. Instead of wondering about your future, take this opportunity to step out in faith and begin to learn God's plan for you. As you make a new start in your life, you have the chance to make changes in the person you are and to live in the plan He has for you. Re-Defining Success: Finding New Hope can help you see a larger picture for your life and be encouraged that these circumstances are life-challenges which have a reason.

How can grasshoppers help parents and feeding professionals teach anxious eaters about new foods? Marsha Dunn Klein, an internationally-known feeding therapist, provides the answer in this book—highlighting that most anxious eaters do not enjoy the sensations and variability of new foods. In seeking to help them, she asks what you 'd need to do to help yourself try a worrisome new food, such as a grasshopper. Drawing on her own experience trying grasshoppers while learning Spanish in Mexico, she personalizes the struggle of children to find new food enjoyment, providing a goldmine of practical, proven, and compassionate strategies for parents and professionals who work with anxious eaters. Learn how to:

- find peace and enjoyment during mealtimes;
- find ways to help anxious eaters fearlessly try new foods;
- navigate the sensory variations in food smells, tastes, textures looks, sounds: and
- help anxious eaters (and their parents) develop a more positive relationship with food.

Because parents are absolutely central to mealtime success, the author incorporates parent insights throughout the book. Using encouragement, novelty, and fun, she invites everyone back to the table with a sensitive and pressure-free approach.

"One of America's great chefs" (Vogue) shares how his drive to cook immaculate food won him international renown-and

fueled his miraculous triumph over tongue cancer. In 2007, chef Grant Achatz seemingly had it made. He had been named one of the best new chefs in America by Food & Wine in 2002, received the James Beard Foundation Rising Star Chef of the Year Award in 2003, and in 2005 he and Nick Kokonas opened the conceptually radical restaurant Alinea, which was named Best Restaurant in America by Gourmet magazine. Then, positioned firmly in the world's culinary spotlight, Achatz was diagnosed with stage IV squamous cell carcinoma-tongue cancer. The prognosis was grim, and doctors agreed the only course of action was to remove the cancerous tissue, which included his entire tongue. Desperate to preserve his quality of life, Grant undertook an alternative treatment of aggressive chemotherapy and radiation. But the choice came at a cost. Skin peeled from the inside of Grant's mouth and throat, he rapidly lost weight, and most alarmingly, he lost his sense of taste. Tapping into the discipline, passion, and focus of being a chef, Grant rarely missed a day of work. He trained his chefs to mimic his palate and learned how to cook with his other senses. As Kokonas was able to attest: The food was never better. Five months later, Grant was declared cancer-free, and just a few months following, he received the James Beard Foundation Outstanding Chef in America Award. *Life, on the Line* tells the story of a culinary trailblazer's love affair with cooking, but it is also a book about survival, about nurturing creativity, and about profound friendship. Already much-anticipated by followers of progressive cuisine, Grant and Nick's gripping narrative is filled with stories from the world's most renowned kitchens-The French Laundry, Charlie Trotter's, el Bulli- and sure to expand the audience that made Alinea the number-one selling restaurant cookbook in America last year.
