The day before yesterday I finished listening to Remote: Office Not Required by Jason Fried the co-founder of Basecamp (formerly known as 37signals) and David Heinemeier Hansson. With COVID-19, a lot of us had to embrace remote work and by now have learned the benefits. This book is a primer for understanding the concept of how technology facilitates remote working, although you...

The founders of 37Signals assess the surging trend of working from home while explaining its challenges and benefits, posing compelling arguments about why businesses should promote work-from-home models and how remote work setups can be productively accomplished.

\* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover all the good reasons to switch to telework and how to adopt it, whether you are an employee or an employer. In particular, you will learn that : employees are more productive when working remotely than in an office; technology today makes it possible to collaborate with people all over the world; teleworking offers freedom and therefore a better balance for workers; to embrace teleworking, traditional management must be overhauled. Teleworking is the business trend of the last decade. Working at a distance will soon become the norm, as today's technologies allow us to do so and office work is reaching its limits. Even if many companies still refuse to do so, this summary will convince you to adopt a new way of working, and therefore a different way of life. Dare to take the plunge! You will be freer and happier. \*Buy now the summary of this book for the modest price of a cup of coffee!

Written by the experts at 37signals, this book shows hundreds of real-world examples from companies like Amazon, Google, and Yahoo that show the right (and wrong) ways to get defensive. Readers will learn 40 guidelines to prevent errors and rescue customers if a breakdown occurs. They'll also explore how to evaluate their own site's defensive design and improve it over the long term.

The must-read summary of Jason Fried and David Hansson's book: "Remote: Office Not Required". This complete summary of the ideas from Jason Fried and David Hansson's book "Remote" shows that now is the right time for allowing more workers to do their work remotely, rather than keeping watch over them in a centralised office. Therefore, if you get your mindset right and put in place some robust operating rules for how remote work will happen, you position your organisation to take full advantage of the benefits of the growing remote work phenomena. Added-value of this summary: • Save time • Understand key concepts • Expand your knowledge To learn more, read "Remote" and find out how you can expand your business all around the globe.

"Every developer working with the Web needs to read this book." -- David Heinemeier Hansson, creator of the Rails framework "RESTful Web Services finally provides a practical roadmap for constructing services that embrace the Web, instead of trying to route around it." -- Adam Trachtenberg, PHP author and eBay Web Services Evangelist You've built web sites that can be used by humans. But can you also build web sites that are usable by machines? That's where the future lies, and that's what RESTful Web Services shows you how to do. The World Wide Web is the most popular distributed application in history, and Web services and mashups have turned it into a powerful distributed computing platform. But today's web service technologies have lost sight of the simplicity that made the Web successful. They don't work like the Web, and they're missing out on its advantages. This book puts the "Web" back into web services. It shows how you can connect to the programmable web with the technologies you already use every day. The key is REST, the architectural style that drives the Web. This book: Emphasizes the power of basic Web technologies -- the HTTP application protocol, the URI naming standard, and the XML markup language Introduces the Resource-Oriented Architecture (ROA), a common-sense set of rules for designing RESTful web services Shows how a RESTful design is simpler, more versatile, and more scalable than a design based on Remote Procedure Calls (RPC) Includes real-world examples of RESTful web services, like Amazon's Simple Storage Service and the Atom Publishing Protocol Discusses web service clients for popular programming languages Shows how to implement RESTful services in three popular frameworks -- Ruby on Rails, Restlet (for Java), and Django (for Python) Focuses on practical issues: how to design and implement RESTful web services and clients This is the first book that applies the REST design philosophy to real web services. It sets down the best practices you need to make your design a success, and the techniques you need to turn your design into working code. You can harness the power of the Web for programmable applications: you just have to work with the Web instead of against it. This book shows you how.

Remote working sounds as easy as grabbing your laptop and heading home. But if you've ever tried it, you'll know it's not just a question of moving offices. There are several barriers and obstacles involved - some external, others from yourself. Working remotely means you have to adapt to a new and different environment and way of working. In this book, you'll find: How to overcome the difficulties companies and people face when starting telework. Practical tips to help you adapt to remote working more quickly. Productivity techniques for more efficient remote work. Time management techniques for more efficient remote working. A look at the differences between remote and office work. Exercises to help you discover what works for you personally for better remote working. The pros and cons of remote working: how to make the most of the flexibility remote work offers. Secrets to success working remotely. Remote work essential tips for working remotely doing your best work in a virtual world. This is a book that every remote worker and future remote worker should read, whether you're an employee, head of Human Resources, CEO or entrepreneur. This book is for you if: You're starting out remote working and you need a little support to adapt to this new way of working. You're already remote working and want to take it up a notch, get organized and be more efficient. You think you could get a little more out of your day-to-day work. You really want to make the most of the flexibility your telecommute offers. This productivity guide to being more efficient while teleworking goes much further than just giving you generic magical formulas that "the best leaders" supposedly use. Here, you'll find personal productivity tips to first get to know yourself better, and then to adapt those time management and productivity techniques to your remote working needs. Don't wait to improve your personal productivity while working remotely online. You'll learn skills that will help you in both your professional and personal development. The remote work revolution is here and succeeding from anywhere is now possible. Many more jobs can be done remotely than we think. Most office work could be done from home, but there are other things you'd never think of: customer service phone lines, psychotherapy, life coaching, yoga teaching... Often, we ourselves place limits and barriers on these things, and need extreme circumstances to make us see that there are other possibilities. With remote work, office not required, and telecommuting will bring many advantages to us and the environment. Let's work remotely for a better world. The pandemic has forced us into remote working with no clue how to do it, without the means, without the preparation needed. The good thing is that it has given us the great opportunity to work from home, which might otherwise have taken years or even decades to arrive. Remote work is the new normal. There is going to be more and more remote employment. It's up to you to adapt to it and to take advantage of all the benefits it holds for your career. Carmen Corral has been remote working for more than eight years, both for companies and for herself. After more than ten years working in Human Resources and Personnel Development, stuck in an office from Monday to Friday, 9 to 5, she decided to do something that gave her more flexibility in when and where she worked. Now, she works remotely, while traveling the world.

Cutting edge thinking and best practice from the best brains at four of the world's top business schools. Everyone in business is involved in strategy. Whether it be formulating it or implementing it. Every business from Fortune 500 companies to internet start-ups is reliant on strategy for survival and success. Mastering Strategy brings you the latest thinking from the world's top international business schools. This rich mix of thought leadership covers all the top strategy issues, from mergers & acquisitions, risk, technology, and alliances, to knowledge, governance, globalization, and leadership. With contributors from among the world's top strategists, including C.K. Prahalad, Henry Mintzberg, John Kay, Noel Tichy, and W. Chan Kim, this book combines definitive new thinking with examples of leading corporate strategies. Strategy is everybody's business. Become a master of yours. SAID The Said Business School is the business school of the University of Oxford, and the newest department in one of the world's oldest universities. The school was established in 1998 through an initial £20m benefaction from Mr Wafiq Said and matching funding from the University. It specializes in high level research into international business topics, including strategy, finance and corporate governance. The school also offers MBA, undergraduate and research degrees to an international student body. INSEAD In just 40 years, INSEAD has grown from a modest European educational start-up to one of the world's leading business schools, with more than 650 MBAs, 5,500 executives and 40 PhDs from over 75 countries passing through its programs every year. Participants are taught by an internationally recognized faculty of 124 professors from 26 countries. The institute's extensive alumni network is present in 122 countries and represents more than 20,200 MBA and executive alumni. CHICAGO The University of Chicago Graduate School of Business is at the forefront of bringing a discipline-based approach to the study of business. Chicago GSB is known for its world renowned faculty, which includes more Nobel Prize winners than any other business school. Chicago GSB is also known for its strength in a number of areas including strategy, finance, entrepreneurship, international business, general management, economics, accounting, marketing and its innovative MBA program, which has campuses in Barcelona,Singapore and Chicago. MICHIGAN In Business Week magazine's bi-annual survey of corporate executives, the University of Michigan Business School (UMBS) was rated the most innovative business schools in the United States. UMBS's MBA and undergraduate programs blend the school's unusual across-the-board academic prowess with intensive development of applied skills and capabilities for results-producing leadership. In addition to degree programs, the Executive Education Center at UMBS offers a wide range of public and customized programs for working executives. More than 5,000 people participate in these programs each year, both on the school's campus in Ann Arbor, Michigan, and in overseas locations.

"Leading from Anywhere is the best book on remote work I've ever read —incisive, original, and eminently practical. Read it —and take notes!"—Daniel H. Pink, author of When, Drive, and To Sell Is Human The ultimate guide to leading remote teams, tackling the key challenges that managers face —from hiring and onboarding new members from afar to building culture remotely, tracking productivity, communicating speedily, and avoiding burnout It's undeniable that we're entering a new era of remote work. While many leaders seek to run business as usual, why settle for the usual when remote teams allow us to work even better? The research shows that employees are more productive and engaged when they have the freedom to work from anywhere. Which means leaders need the skills to lead from anywhere. In this meticulously researched, refreshingly practical book, top business thought leader David Burkus provides managers with the field guide to leading remotely, packed with everyday examples and illuminating insights. Structured around the life cycle of working on a team, Burkus tackles the key inflection points and challenges that remote managers face, from taking the team remote and adding new members to communicating effectively and quickly, managing performance, keeping the team engaged, and even helping them strike the right balance between work and life. Leading from Anywhere provides everything you'll need to survive and thrive as the leader of a remote team —something all leaders will need to consider themselves from now on.
