The rubric is designed using theoretical considerations from a range of thinkers around reflection as Moon, Sch\u00f6n, Boud and Mezirow. This rubric has been used in empirical studies and a high inter-rater reliability has been established. There are two components to the rubric. The standard rubric and an additional axis.

~~Assessment rubrics | The University of Edinburgh~~  
Characteristics to note in the rubric: Language is descriptive, not evaluative. Labels for degrees of success are descriptive ("Expert" "Proficient", etc.); by avoiding the use of letters representing grades or numbers representing points, there is no implied contract that qualities of the paper will "add up" to a specified score or grade or that all dimensions are of equal grading value.

Shawn C. Smallman and Kimberley Brown's popular introductory textbook for undergraduates in international and global studies is now released in a substantially revised and updated third edition. Encompassing the latest scholarship in what has become a markedly interdisciplinary endeavor and an increasingly chosen undergraduate major, the book introduces key concepts, themes, and issues and then examines each in lively chapters on essential topics, including the history of globalization; economic, political, and cultural globalization; security, energy, and development; health; agriculture and food; and the environment. Within these topics the authors explore such diverse and pressing subjects as commodity chains, labor (including present-day slavery), pandemics, human rights, and multinational corporations and the connections among them. This textbook, used successfully in both traditional and online courses, provides the newest and most crucial information needed for understanding our rapidly changing world. New to this edition: \*Close to 50% new material \*New illustrations, maps, and tables \*New and expanded emphases on political and economic globalization and populism; health; climate change, and development \*Extensively revised exercises and activities \*New resume-writing exercise in careers chapter \*Thoroughly revised online teacher's manual

What is a rubric? A rubric is a coherent set of criteria for student work that describes levels of performance quality. Sounds simple enough, right? Unfortunately, rubrics are commonly misunderstood and misused. The good news is that when rubrics are created and used correctly, they are strong tools that support and enhance classroom instruction and student learning. In this comprehensive guide, author Susan M. Brookhart identifies two essential components of effective rubrics: (1) criteria that relate to the learning (not the "tasks") that students are being asked to demonstrate and (2) clear descriptions of performance across a continuum of quality. She outlines the difference between various kinds of rubrics (for example, general versus task-specific, and analytic versus holistic), explains when using each type of rubric is appropriate, and highlights examples from all grade levels and assorted content areas. In addition, Brookhart addresses \* Common misconceptions about rubrics; \* Important differences between rubrics and other assessment tools such as checklists and rating scales, and when such alternatives can be useful; and \* How to use rubrics for formative assessment and grading, including standards-based grading and report card grades. Intended for educators who are already familiar with rubrics as well as those who are not, this book is a complete resource for writing effective rubrics and for choosing wisely from among the many rubrics that are available on the Internet and from other sources. And it makes the case that rubrics, when used appropriately, can improve outcomes by helping teachers teach and helping students learn.

Discover the excellent writing your students can produce when provided with a rubric and challenged to do their best.

Designed specifically for undergraduate writing, this easy-to-use pocket guide provides complete guidance for new writers on effective, clear, and inclusive scholarly communication and the essentials of formatting papers and other course assignments.

Contains a collection of specific classroom strategies & suggestions for teaching writing to elementary school students according to an eight-stage process. Specific techniques for teaching each stage of the writing process & descriptions of proven approaches for using these techniques are also included. "A wonderful resource, a labor of love from a large & talented group of educators." Had its beginnings in the California Writing Project at the Univ. of California, Irvine. Best Seller! Illustrated.

Drawing on her extensive experience as a teacher, the author shares quick, clear, and easy rubrics for accessing students' work. These ideas will help students learn the qualities of a good performance and give parents a detailed picture of their children's progress.

Assess reading comprehension, story character analysis, content-area research reports, personal experience essays, and more.
