DIY PVC Recurve Bow
How To – D'Rash ...
The basic difference

Access Free Simple Pvc Pipe

Between the recurve bow and a simple bow made out of straight PVC pipe is that the recurve bow is curved to increase the amount of velocity it can transfer to the arrow. This curve is made by heating the PVC with a heat gun, bending it to the desired shape and holding it there

Effective And
Compact
Archery Bows
A PVC pipe bow takes
its strength from its
cross section.

Therefore, in order to
get the bow to bend
like we want (bending
more at the tips than
at the center), we

Access Free Simple Pvc Pipe

need to modify that cross section by making it weaker towards the tips and stronger towards the center. We will accomplish this by tapering the pipe.
