If you're a highly sensitive person (HSP), you're in good company. HSP's make up some 20 percent of the population, individuals like you who both enjoy and wrestle with a finely tuned nervous system. You often sense things that others ignore such as strong smells, bright lights, and the crush of crowds. Even the presence of strangers in your immediate vicinity can cause you considerable distraction. You already know that this condition can be a gift, but, until you learn to master your sensitive nervous system, you might be operating in a constant state of overstimulation. As an HSP, the most important thing you can learn is how to manage your increased sensitivity to both physical and emotional stimulation. This accessible, practical guide contains strategies to help you master this critical skill. Build your coping skills by exploring the books engaging exercises. Then, keep the book by your side, a constant companion as you make your way through your vibrant and highly stimulating world.

- Find out what it means to be a highly sensitive person
- Take the self-examination quiz and find out whether you are highly sensitive
- Learn coping techniques indispensable to HSP's
- Discover how to manage distractions like noise and time pressure at home and at work
- Reduce sensory-provoked tension with meditation and deep relaxation techniques
- Navigate the challenges of interacting with others in social and intimate relationships

Teachers working in Post Compulsory Education are recognised as being subject to a particularly acute set of pressures and challenges. These can include highly diverse and sometimes challenging student groups, trying to manage a complex curriculum which changes regularly and rapidly, and having to respond to the intense demands of inspection, quality assurance regimes and major government policies. Now in its second edition, the highly regarded *In at the Deep End: A Survival Guide for Teachers in Post-Compulsory Education* will help you to manage the varied demands of teaching in PCE more effectively by offering friendly, professional advice and a range of teaching and learning activities which will help you become an effective, confident, committed and reflective teacher. With a range of strategies, activities and spaces to reflect, this positive and practical 'survival guide' provides advice on:

- Meeting initial challenges, working positively with your students and handling challenging behaviour
- Accessing support, working with your local colleagues and a greater community of practice
- Using straightforward techniques to help you manage pressure and conflict
- Supporting skills for life, key skills and essential skills
- Making positive use of Information and Communications Technology to support learning
- Teaching your specialist subject
- Managing inspections, developing as a leader and becoming a 'Reflective Practitioner'

Lively and engaging, and built from the experience of many teachers across the last 30 years, this book will help all teachers overcome everyday problems and pressures to keep their 'heads above water', and become efficient, skilled professionals in the Post Compulsory Education workforce.

We are different from the world to begin with ... we always have been. We are a peculiar people who have been labeled artists, geniuses, teachers, free spirits. We are free spirits and that suits us just fine. We have declared our independence from Mainstream.
