Without that class, I would never have discovered my LOVE for math. I have also experienced this as a teacher. Sometimes, when students get a glimpse into theoretical or applied math, they realize that they truly do not hate all math. Before your students leave high school, give them a peek at the options that lie ahead.

Teaching Strategies for High School: Tips from a Teacher ...

Employability skills need to be a school wide focus. They are difficult to teach in a single, discrete lesson, or even in a lesson series. Employability skills are best taught when they are a natural inclusion in everything which goes on in a school. Try listing the employability skills in a framework or checklist, then identifying areas of the curriculum where each skill can be focussed on explicitly for an extended period.

Employability Skills: Teaching Work Skills to High School ...

A lot of people wonder why anybody would put themselves through the stress of teaching. I love teaching and I especially love teaching teenagers. Here are some of the reasons why teaching high school is the best job ever. 1. They get your sarcasm and jokes. In fact, they love your sarcasm and jokes—even when your jokes are terrible.

Why Teaching High School is the Best Job Ever - WeAreTeachers

Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem.

Project-based learning - Wikipedia

There are a number of things you can do to help, including: print the homework off on a sticky label and put that in the student's planner email the parents so they know what the homework is differentiate the homework so that it is something related to the student's interests or involves less writing teach the student how to use speech to text technology in Word or other programmes so there is less writing support them to do the homework in school homework clubs ...or give them less ...

The term teaching method refers to the general principles, pedagogy and management strategies used for classroom instruction. Your choice of teaching method depends on what fits you — your educational philosophy, classroom demographic, subject area (s) and school mission statement. Teaching theories can be organized into four categories based on two major parameters: a teacher-centered approach versus a student-centered approach, and high-tech material use versus low-tech material use.
