freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

From the acclaimed Printz Honor winner author Stephanie Hemphill comes this powerful fictionalized account of the Salem witch trials from the point of view of three of the real young women living in Salem in 1692. Ann Putnam Jr. is the queen bee. When her father suggests a spate of illnesses in the village is the result of witchcraft, she puts in motion a chain of events that will change Salem forever. Mercy Lewis is the beautiful servant in Ann's house who inspires adulation in some and envy in others. With her troubled past, she seizes her only chance at safety. Margaret Walcott, Ann's cousin, is desperately in love. She is torn between staying loyal to her friends and pursuing a life with her betrothed. With new accusations mounting against the men and women of the community, the girls will have to decide: Is it too late to tell the truth?

For some fifty years now, Arthur Miller has been not only America's premier playwright, but also one of our foremost public intellectuals and cultural critics. *Echoes Down the Corridor* gathers together a dazzling array of more than forty previously uncollected essays and works of reportage. Here is Arthur Miller, the brilliant social and political commentator—but here, too, Miller the private man behind the internationally renowned public figure. Large volume food processing and preparation operations have increased the need for improved sanitary practices from processing to consumption. This trend presents a challenge to every employee in the food processing and food preparation industry. Sanitation is an applied science for the attainment of hygienic conditions. Because of increased emphasis on food safety, sanitation is receiving increased attention from those in the food industry. Traditionally, inexperienced employees with few skills who have received little or no training have been delegated sanitation duties. Yet sanitation employees require intensive training. In the past, these employees, including sanitation program managers, have had only limited access to material on this subject. Technical information has been confined primarily to a limited number of training manuals provided by regulatory agencies, industry and association manuals, and recommendations from equipment and cleaning compound firms. Most of this material lacks specific information related to the selection of appropriate cleaning methods, equipment, compounds, and sanitizers for maintaining hygienic conditions in food processing and preparation facilities. The purpose of this text is to provide sanitation information needed to ensure hygienic practices. Sanitation is a broad subject; thus, principles related to contamination, cleaning compounds, sanitizers, and cleaning equipment, and specific directions for applying these principles to attain hygienic conditions in food processing and food preparation are discussed. The discussion starts with the importance of sanitation and also includes regulatory requirements and voluntary sanitation programs including additional and updated information on Hazard Analysis Critical Control Points (HACCP).

worked for decades with clients and their dream symbols and witnessed the presence of the divine hand at work in the psyche. In *The Pregnant Darkness*, Wikman shows readers that the best way to cope with their darkest hours is by fostering a connection to the deeper current of life, those mysteries that give life form and meaning. Wikman's analysis of dream material leads readers into a practical explanation of alchemical symbolism. Far from being a quaint, ancient practice, *The Pregnant Darkness* shows that alchemy is at work in contemporary, everyday life. Alchemical symbolism, properly understood, can be applied to unraveling the meaning of visions in meditation, active imagination, and dream work. Wikman shows how readers can participate in the divine energies to help miraculous changes occur in their lives. Wikman writes: "In Greek mythology, Pegasus, upon taking to the air, pushed hard with a back hoof and penetrated the earth. A spring rose up where his hoof dashed the earth, and in this hole . . . the muses reside. One of the roles of the "religious function" of which Jung speaks is to bring us toward that inner spring of the muses where something beyond ego resides, instructs, and inspires. Like a hole created from Pegasus' leaping foot, contact with this inner spring often entails a crack in our field of ordinary consciousness. In the inner world, the spring of living symbols and accompanying presences is the source of dreams and visions, as well as the fountain of inspiration at the heart of poetry, art, ritual, mythology, and even religion."

Arthur Miller is regarded as one of the most important playwrights of the twentieth century, and his work continues to be widely performed and studied around the world. This updated Companion includes Miller's work since the publication of the first edition in 1997 - the plays *Mr Peters' Connections*, *Resurrection Blues*, and *Finishing the Picture* - and key productions of his plays since his death in 2005. The chapter on Miller and the cinema has been completely revised to include new films, and demonstrates that Miller's work remains an important source for filmmakers. In addition to detailed analyses of plays including *Death of a Salesman* and *The Crucible*, Miller's work is also placed within the context of the social and political climate of the time. The volume closes with a bibliographic essay which reviews the key studies of Miller and also contains a detailed chronology of the work of this influential dramatist.
