The battle at Towton in Yorkshire on 29 March 1461 was the largest, longest fought and bloodiest day in English medieval history. In terms of the number of troops involved, the ruthlessness of the fighting, the quantity of casualties and the decisive nature of its outcome, Towton stands out from the long sequence of battles fought for control of England in the fifteenth century. This bitter contest of arms was a turning point in the Wars of the Roses and - as a result of the discoveries of modern archaeological research - it is one of the best known. John Sadler, in this vivid reconstruction of the battle, offers a fresh view of a pivotal episode in English history and an unflinching insight into the cruelties of medieval warfare.

The tumultuous reign of Henry VI and its climax in the carnage of Towton—the bloodiest battle fought on English soil. The battle of Towton in 1461 was unique in its ferocity and brutality, as the armies of two kings of England engaged with murderous weaponry and in appalling conditions to conclude the first War of the Roses. Various described as the largest, longest, and bloodiest battle on English soil, Towton was fought with little chance of escape and none of surrender. Yet, as if too ghastly to contemplate, the battle itself and the turbulent reign of Henry VI were neglected for centuries. Combining medieval sources and modern scholarship, George Goodwin colorfully re-creates the atmosphere of fifteenth-century England. From the death of the great Henry V and his baby son 's inheritance first of England and then of France, Goodwin chronicles the vicious infighting at home in response to the vicissitudes of the Hundred Years War abroad. He vividly describes the pivotal year of 1450 and a decade of breakdown for both king and kingdom, as increasingly embittered factions struggle for a supremacy that could be secured only after the carnage of Towton. Fatal Colours includes a cast of strong and compelling characters: a warrior queen, a ruthless king-making earl, even a papal legate who excommunicates an entire army. And at its center is the first full explanation for the crippling incapacity of the enduringly childlike Henry VI—founder of Eton and King 's College, Cambridge. With a substantive and sparkling introduction by David Starkey, Fatal Colours brings to life a vibrant and violent age.

A gripping account of the Wars of the Roses battle of Towton - the most brutal day in English history. 'Vivid, humane and superbly researched' David Starkey 'The story has never been told so well or so excitingly' Desmond Seward The Battle of Towton in 1461 was unique in its ferocity and brutality, as the armies of two kings of England engaged with murderous weaponry and in appalling conditions to conclude the first War of the Roses. For much of the 16th century the Mediterranean was a battleground between Christians and Muslims. A decisive battle between two large galley fleets was expected to decide the fate of the entire Mediterranean basin. In August 1571, an Ottoman fleet of some 235 galleys encountered the slightly smaller Christian fleet of the Holy League. In a five hour melee the Christians inflicted a decisive defeat on the Turks. Lepanto was the last great galley fight of all time and one of the most decisive naval battles in history. This book details the course of one of the most crucial military campaigns of the Renaissance.

## The Battle of Towton

Even ten years after the excavation, the Towton project is still unique since no other mass grave from a known battle has yet been found in the UK. *Blood Red Roses*, second edition describes a multidisciplinary project involving weapons experts from the Royal Armouries, anthropologists, archaeologists and a geophysicist who were involved in the excavation and post-excavation analysis of 37 combatants brutally killed at the Battle of Towton in AD 1461. Almost all of them had suffered major head injuries and these have been analysed with techniques used by forensic anthropologists to document the injuries of modern murder victims. The wound signatures were then compared with the profiles of weapons dating to the fifteenth century. The second edition is designed to make this volume available to a new generation of researchers. With this purpose in mind, an additional chapter has been added which is aimed at medieval re-enactors and history teachers, among others. These are the two groups of people who found the first edition so useful for authenticating the types of weapon and armour employed during the Wars of the Roses. Additional colour illustrations have also been added which show the full horror of the injuries sustained by these unfortunate victims of the battle.

This singular engagement of the Wars of the Roses has acquired the auspicious title of the longest, biggest and bloodiest battle ever fought on British soil.

The Wars of the Roses was a complicated, bloody affair between the houses of Lancaster and York, and witnessed much changing of sides. That disjointed feuding persisted for a staggering thirty years and was a north versus south affair. However, the period and conflicts covered by this title are refreshingly clear. An intriguing tale of treachery and deceit.
