In essays that question how the human sciences, particularly anthropology and psychoanalysis, articulate their fields of study, Crapanzano addresses nothing less than the enormous problem of defining the self in both its individual and collective projections.

Private investigators Eduard and Borja infiltrate the upper echelons of Barcelona's publishing world in order to investigate a famous author's murder that is eerily similar to the heroine's murder in her award-winning novel.

Where did the Aryans come from originally? Did they invade India? Or were they actually Indian invaders who colonized Greece? In India in Greece, E. Pococke explores the theory that the Aryans may have originally travelled from India to Greece, colonized the latter and influenced the culture there. Centuries later, they came back to India. Covering topics as diverse as the sources of the Hellenic Race, the colonization of Egypt and Palestine, the wars of the Grand Lama and the Bud'hist propaganda in Greece, the author tries to show that at some point in history, India and Greece were closely associated.

"A sequel to Carry On...every bit as fine as the first. A classic page-turner."— Booklist, starred review Simon Snow is back and he's coming to America! The story is supposed to be over. Simon Snow did everything he was supposed to do. He beat the villain. He won the war. He even fell in love. Now comes the good part, right? Now comes the happily ever after... So why can't Simon Snow get off the couch? What he needs, according to his best friend, is a change of scenery. He just needs to see himself in a new light. That's how Simon and Penny and Baz end up in a vintage convertible, tearing across the American West. They find trouble, of course. (Dragons, vampires, skunk-headed things with shotguns.) And they get lost. They get so lost, they start to wonder whether they ever knew where they were headed in the first place. With Wayward Son, Rainbow Rowell has written a book for everyone who ever wondered what happened to the Chosen One after he saved the day. And a book for everyone who was ever more curious about the second kiss than the first. Come on, Simon Snow. Your hero's journey might be over — but your life has just begun.

The landscape of Women with Men ranges from the northern plains of Montana to the streets of Paris and the suburbs of Chicago. The tragedies that stalk the characters are unfolded with an indelible wit and clarity. So merciless is Ford's lingering gaze upon human, mostly male, weakness, so understanding his eye for the unravelling threads of human love, that this collection of novellas seems only to broaden the reputation and the following of one of the outstanding writers of our time.

How do people make sense of their experiences? How do they understand possibility? How do they limit possibility? These questions are central to all the human sciences. Here, Vincent Crapanzano offers a powerfully creative new way to think about human experience: the notion of imaginative horizons. For Crapanzano, imaginative horizons are the blurry boundaries that separate the here and now from what lies beyond, in time and space. These horizons, he argues, deeply influence both how we experience our lives and how we interpret those experiences, and here sets himself the task of exploring the roles that creativity and imagination play in our experience of the world.

Exploring gender, photography, cultural history and modernity, this title examines the way in which the dress acts on the body and is integral to our experience of embodiment.
