The Legal Entity Identifier is a unique global identifier for legal entities participating in financial transactions. Also known as an LEI code or LEI number, its purpose is to help identify legal entities on a globally accessible database. Legal entities are organisations such as companies or government entities that participate in financial transactions. An individual person may not obtain an LEI. The identifier is used in regulatory reporting to financial regulators and all financial companie

Legal Entity Identifier - Wikipedia  
Step-by-Step Process for Legal Entity Rationalization. Companies should approach legal entity rationalization initiatives in a planned, well-organized manner. While the order may vary, the process should include the following steps: Step 1: Obtain an accurate chart of the current structure, including all legal entities, types and locations. While this step sounds straightforward, many organizations do not have an updated chart, especially in the wake of a merger or new acquisition.
